EDUCATION

PURDUE UNIVERSITY | WEST LAFAYETTE, IN

Bachelor of Science in Cybersecurity & Computing Infrastructure and Network Engineering Technology (INET)

- **Expected Graduation:** May 2028
- **GPA:** 3.46 | Dean's List Fall 2024 - Fall 2025
- **Relevant Coursework:** Cybersecurity Fundamentals (I & II), Digital Forensics, Cyber Criminology, Network Administration, Internetwork Design & Implementation, System & UNIX Administration, Systems Programming, Database Fundamentals, Systems Analysis & Design.

CERTIFICATIONS

- **COMPTIA SECURITY+ CERTIFICATE**
- **TCM SECURITY PRACTICAL SOC ANALYST PROFESSIONAL CERTIFICATE**
- **GOOGLE CYBERSECURITY PROFESSIONAL CERTIFICATE**
- **TCM SECURITY PRACTICAL MALWARE RESEARCH PROFESSIONAL CERTIFICATE (IN PROGRESS)**

TECHNICAL SKILLS

- **Languages:** Java (3+ years), C, SQL, Bash Scripting, Python
- **Infrastructure & Cloud:** Proxmox, Terraform (IaC), Docker, VMware, Active Directory, Oracle, Linux/Windows Server
- **Security:** Wazuh SIEM Engineering, SIEM Alert Triage, Log Analysis (Sysmon, Windows Event Logs), IoC Extraction, Cowrie Honeypots, Incident Response, Digital Forensics, MITRE ATT&CK Mapping
- **Networking:** OPNsense, Tailscale, Cisco-based Enterprise Networks, Network Administration
- **Web & Systems Admin:** FastAPI, React, Grafana, InfluxDB, and Linux command-line utilities

EXPERIENCE

IT TECHNICIAN | WEST LAFAYETTE, IN

Purdue University | August 2026 - Now

- Provided Tier I technical support for users across high-traffic facilities, resolving hardware, software, and peripheral issues
- Monitored endpoint health across hundreds of workstations using internal dashboards to diagnose and restore offline systems
- Managed hardware outages and escalated network failures using a ticketing system to ensure accurate incident tracking
- Troubleshoot high-volume network printers and conducted routine hardware audits to maintain continuous IT asset availability
- Audited technical inventories and enforced physical access controls to maintain secure computing environments across campus.

PROJECTS & LAB EXPERIENCE

- **Public Honeypot & Dynamic Malware Analysis:** Deployed an Oracle Cloud Cowrie honeypot and Wazuh SIEM to actively extract real-world botnet IoCs. Provisioned an air-gapped REMnux sandbox on Proxmox to safely execute multi-stage Python worms and capture network telemetry. Authored comprehensive threat intelligence reports mapping credential stuffing vectors and post-exploitation tactics to MITRE ATT&CK.
- **Enterprise Cyber Range & Proxmox Infrastructure:** Created a bare-metal Proxmox environment utilizing Terraform (IaC) to automatically provision segmented target VMs and routing. Architected an isolated network using OPNsense firewalls to securely simulate enterprise-grade vulnerable security architectures. Engineered automated provisioning pipelines via Cloud-Init and SSH remote-exec to rapidly deploy disposable incident response nodes.
- **Vitalis Full-Stack Web Application:** Developed a secure full-stack health application integrating Google OAuth authentication and real-time cloud database syncing. Engineered backend REST APIs with Node.js to securely process and validate sensitive biometric telemetry and AI health data. Implemented strict data privacy controls and user-managed data deletion pipelines within Firebase and Cloud Firestore systems.

LEADERSHIP & EXTRACURRICULARS

CAPTAIN, PURDUE MEN'S CLUB VOLLEYBALL | (2024 – PRESENT)

Directed on-court defensive strategy and proactively coordinated tournament logistics to drive competitive team performance. Fostered a collaborative team culture by mentoring new athletes and maintaining rigorous practice schedules during the season.
